## What Is "Hoss?"

*"Handy Organizing Storage Systems"*

**HOSS** consists of various size wire panels that can be mounted on walls either horizontally or vertically using mounting brackets or utility hooks that hang over walls.

On the **HOSS** panels, various sizes of baskets and bins can be hung as well as a variety of shelves, hooks, and hangers.

All **HOSS** products hook onto the panels and can be removed and repositioned as needed. Even the panels can be lifted off the mounting brackets.

The **HOSS** system allows you to get everything up off the floor and into plain sight which increases safety and efficiency for grooms, riders and horses.

## Cavelletti and Jump Standards

### Item #BCB

**Cavaletti Blocks (Pair) - Poles not included**

14" x 14" x 5"W.

Adjust the height with a push of a foot from 6", 8", 10" and 12".

Sold in pairs.

Available in several colors.

(Purchase your preference of poles in your area)

(shipping included in price)

Cost—\$72.90 Pair

## Arena

### Item #BDEA

#### 4 Corners Dressage Arena STANDARD—Rails not included

If you want to save money and don't require a full court, our "4 Corners Arena STANDARD" arena is the way to go.

This package includes four corner supports with eight end support cones. You can purchase the rails and lengths that you prefer from a supplier in your area.

The support cones are designed to house round rails as well as up to 1 1/2"W x 5 1/2"H flat rails.

Cost—\$400.00 (shipping included in price)

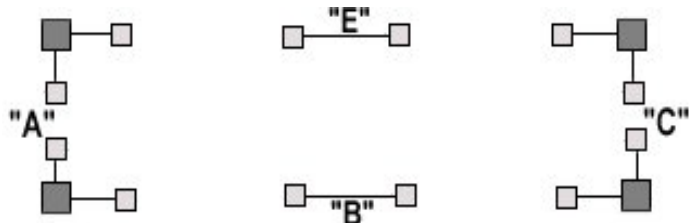

### Item #BDEP

#### 4 Corners Dressage Arena PLUS—Rails not included

Same as our 4 Corners Arena STANDARD above, but with four more support cones to hold a long rail on each side of the arena area at "E" and "B". You can purchase the rails and lengths that you prefer from a supplier in your area.

The support cones are designed to house round rails as well as up to 1 1/2"W x 5 1/2"H flat rails.

Cost—\$464.00 (shipping included in price)

## How To Order

- ✓ Measure the available space in which you want to install a panel (width & height).
- ✓ Find a panel that most closely fits inside your available dimensions.
- ✓ Decide what you want to store on your panel and determine how many mounting brackets you need to secure the panel:
  - A minimum of 3 brackets for the 1x5 panel is recommended.
  - A minimum of 4 brackets for all other panels is recommended.

**NOTE:** Bracket anchoring hardware is NOT included with panels.

- ✓ Select the storage accessories you will need—baskets, bins, shelves, hooks.
- ✓ Once you have decided what you need, we recommend that you use the convenient online ordering on our website—[www.OrganizedBarn.com](http://www.OrganizedBarn.com).

**Shipping charges** are based upon item weight and dimension. ALL large items (ie. panels, wire bin) require additional shipping charges. We will use the most inexpensive method available.

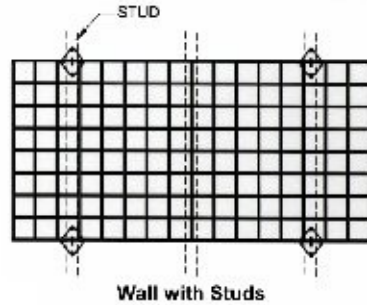

**Refunds and Exchanges**—All items returned for refund must be received by The Organized Barn & Trailer within 30 days of purchase. A 30% restocking fee will be deducted from the refund amount.

Please see our website for current products  
and current pricing.

## HOSS Panel Installation

### TOOLS REQUIRED:

- Phillips screw driver
- Electric drill
- 1/8" diameter drill
- Level
- Tape Measure
- Screws - 2 to 4 per bracket, screw type dependent on mounting surface

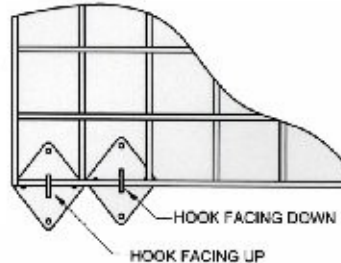

### WALL WITH STUDS

1. Locate wall studs within the wall that you are hanging the panel on.
2. Level and hold panel on the wall in the preferred location.
3. Along the top and bottom rows of panel, mark the locations of the wall studs.
4. Using the outer most wall studs located behind the panel, measure 1 1/2" from the bottom of the top wire up the center of the wall stud. Drill a 1/8" hole diameter pilot hole.
5. Attach the mounting bracket using a screw. Make sure the hook portion of the bracket is open on top. Align the bracket so that the bottom hole is vertical to the top hole.
6. Drill a 1/2" diameter pilot hole in the bottom hole location and attach using a screw.
7. Repeat steps 4 - 6 for the bottom two mounting brackets.

### LOCKING THE PANEL

(Optional - requires additional mounting brackets)

1. After the panel is in place, turn the additional mounting bracket upside down so that the hook faces down and attach to wall. See drawing.

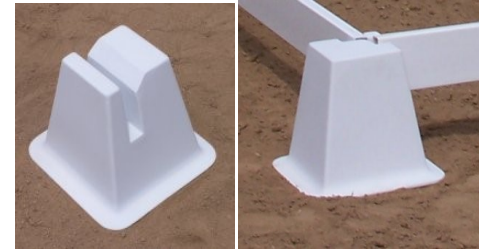

## Arena

### Item #BRS Dressage Arena Perimeter Rail & Pole Supports

Can support 1 1/2" x 5 1/2" rails, or will cradle poles as well. Please specify how many corner support cones you need and how many straight side support cones you need. White only.

(Purchase your preference of poles in your area)

Cost—\$32.00 ea. (shipping included in price)

### Dressage Arena Letter Cones

18" tall with 16" base.

Designed to withstand even the windiest conditions. Stackable, and easy to separate.

Shipping included in prices.

Item #BLC8  
\$332.00 set of 8

Item #BLC12  
\$484.00 set of 12

### Item #BDA Complete Dressage Arena

20 Meters x 60 Meters, includes perimeter rails and supports.

This arena features a set-in design that is user friendly for set-up. The rails are pre-measured so you simply place the rail into the supports which assures perfect measurements every time. The 100% UV treated material is super tough and durable and will withstand abuse and all weather conditions. It is highly stable in high wind areas. Rail dimension: 1 1/2" x 5 1/2" - ribbed (not hollow) to add strength, durability and eliminates sagging. Rail height is at the 12" requirement height.

40 Rails and 40 Cones.

**\$2,500.00 Complete**
